AMAN CLUB AT AMAN NEW YORK

Founding Membership

Since its inception, Aman has been at the forefront of redefining how the world can be experienced. Constantly pushing boundaries to reimagine what is possible, Aman's philosophy is the cumulation of several ambitions; to exist in the world's most extraordinary settings, a generosity of space that honours and reflects its surroundings, and unparalleled service. Above all, a place to feel at home.

This journey continues with the next chapter in the Aman story. An evolution that brings greater connection, greater freedom and a profound sense of belonging.

The Aman Club.

Aman New York

Bringing the serenity of Aman to the centre of the western world, Aman unveils a new urban sanctuary with the rebirth of an architectural icon in the heart of Manhattan. Set within the iconic Crown Building, the arrival of Aman New York marks a new era for Aman in one of the world's greatest cities.

Since 1921, the Crown Building has presided over the midpoint of Manhattan; the corner of Fifth Avenue and 57th Street. Rising 26 stories from the boutique-lined street, the building's windows and terraces look out over city's skyline.

The Crown Building - formerly the first home of Museum of Modern Art - has undergone a monumental transformation, which has seen it fully restored to its original splendour and imbued with the spirit of Aman.

Designed by Jean-Michel Gathy of Denniston, Aman New York celebrates the brand's philosophy of creating sanctuaries beyond commonplace notions of luxury, whilst paying homage to the building's striking architecture and significant history.

Aman New York consists of 83 hotel suites, three principal dining venues, a subterranean jazz club, and a three-storey (2,300-square-metre) Aman Spa. It also offers a garden terrace and bar with 650-square-metres of outdoor space, alongside the first home for Aman Club members and exclusive Aman branded residences.
