ABOUT THE PROGRAM

The Anderson Resident Artist Program was created in loving memory of **Jacquelyn “Jackie” Anderson**, a devoted photographer, creative force, and quiet champion of the arts who passed away from cancer in 2021. To honor her legacy, her husband, Jim Anderson, established a living tribute: **The Jacquelyn, a private social club dedicated to wellness, creativity, and connection.**

In the same spirit, the Anderson Resident Artist Program offers artists a transformational opportunity to focus exclusively on their craft, without the burden of earning a living while creating. This residency invites artists to engage with a deeply personal and inspiring source: a curated book of **300 original photographs by Jackie**, selected by her husband to reflect their shared love of travel, nature, and the beautiful details found in everyday life.

THE JACQUELYN

The concept of The Jacquelyn was born from art and plays a pivotal role in creating an environment that facilitates connection, growth, and inspiration. Art serves as the universal language that transcends boundaries and brings people together, fostering meaningful dialogue and shared experiences within our community. Through creative expression, we witness the transformation of individual perspectives into collective understanding, as artists challenge us to see the world through new lenses and question our assumptions. The presence of working artists in our space creates a dynamic energy that ripples through every interaction, inspiring residents and visitors alike to approach their work and relationships with greater creativity and intentionality. Art doesn't simply decorate our walls—it actively shapes our culture, encouraging risk-taking, vulnerability, and authentic self-expression that ultimately drives purposeful action and deeper human connection.
