**Item 3: The jurisdiction(s) and date of the issuers' incorporation or organization**

The Company was organized under the laws of the State of Nevada on June 1, 2000 under the name of Invicta Group, Inc.

**Part B Share Structure**

**Item 4: The exact title and class of securities outstanding**

The Company has 2 classes of capital stock

Common (Restricted and Free Trading) and Preferred (Series G & H)

As of 3/31/18 the Company consisted of **1,875,104,328** total shares of Common Stock Outstanding and the Company also has **4,767,000** shares of preferred stock outstanding. The Company's trading symbol is ACGX.PK and CUSIP number is 01858T107.

**Item 5: Par or stated value and description of the security**

The Common Stock has a par value of \$.0001. The Common Stock has a one share one vote right and no future rights to dividends. As of October 10, 2016 the voting rights for the Series G preferred stock was amended to 700 votes per share along with 700 to 1 conversion rights into common stock. If all the remaining preferred stock owned by Mr. St. Louis was converted into restricted common stock in the future it would be equal to 2,800,000,000 common shares. The Company increased the Authorized Common Stock to 2,900,000,000 on October 10, 2016. There are no current plans to convert any more preferred Series G shares into common shares at this time for Mr. St. Louis.

On or around April 7, 2014 the company approved the authorization of a new series of Preferred Stock – Series H - along with taking the proper corporate board actions. On or about April 24, 2014 the Secretary of State of Nevada approved the certificate of designation for these Preferred Series H shares and the Company uploaded this filing to the OTC Markets website.

The filing authorized up to 2,000,000 Preferred Series H shares to be possibly issued in the future. This is not a public offering and if any shares are issued it will be to accredited investors with existing relationships with the company. This may allow the company to raise future capital via equity shares rather than through debt. It may also allow the company to potentially utilize these shares to help close potential future mergers or acquisition opportunities if needed.

If the company sells any of these shares the investors/shareholder(s) will pay \$1 per share and will receive 4% cumulative preferred shares which will include a cumulative dividend in the form of additional shares. If the investor/shareholder decides to convert their shares into common shares after holding them for a minimum of 1 year to cover the restricted time period the preferred shares may be converted into common shares at a ratio equal to 70% of the average of (or a 30% discount from) the 3 lowest closing prices during the prior 10 days.

The company will also maintain the right to buyback these shares or allow a larger future investor to potentially buyout these preferred shares at a price equal to 120% of the original paid amount. As of March 31, 2018 the company has 767,000 Preferred Series H Shares. This filing is consistent with the company's desire to reduce its debt and build its equity to be better position for the future.

**Item 6: The number of shares or total amount of the securities outstanding for each class of securities authorized**

As of: March 31, 2018 the Company had the following:

**Part C Business Information**

**Item 8: The nature of the issuer's business**

**A. Business Development.**

Paul Sorkin received the controlling preferred shares of Invicta Group, Inc. on June 23, 2008. The Company changed its name from Invicta Group, Inc. to Alliance Creative Group, Inc. on November 15, 2010. Steven St. Louis received the controlling preferred shares and became CEO and Chairman of the board on December 21, 2011.

The Company is currently in operations and is a full-service product-development agency. The core business has been around since 1997 and has been helping clients connect their products and services to their customers. ACG focuses on creative and design services, printing and packaging, brand and product development, fulfillment, logistics and transportation, strategic consulting, digital marketing and engagement, and software development.

The Company is an investor in PeopleVine, a consolidated CRM, Marketing, and Operations platform that allows businesses to build more personal relationships with their customers at scale

As of March 31, 2018 the Company owns and operates Primary Trucking, a FTL (full truckload) trucking company and owns Rapid Freight Solutions, a national trucking broker. Later in this report the Company explains more details regarding the new focus and changes for trucking as per the agreement that Company has entered into after March 31, 2018 to change the future involvement in the Trucking business.

The Company is an investor in Four Oceans, now called Elevacity.

The Company's general mission is to help our clients engage with their customers in an authentic and relevant way, while adding value to their business and marketing objectives.

More specifically we also offer the consumer packaged goods industry with one simplified procurement product development brand management process and supply chain solution.

Our PeopleVine software mission is to revolutionize the way our users connect, learn and build effective relationships with their customers.

We utilize a unique blend of products, services, and relationships to increase value for both clients and shareholders. We accomplish this by leveraging our branding, marketing, technology and event resources to improve and deepen the relationship between our clients and their customers

Management is now focused on generating sales revenue and creating a high quality customer experiences. The Company key services include: creative and design services, printing and packaging, brand and product development, fulfillment, logistics and transportation, strategic consulting, digital

marketing and engagement, and software development. The main 4 areas include: branding, marketing, packaging, and transportation.

The company has expanded its services to include a new internal shared resources program to look for future potential companies or projects that are looking to get someone to invest in them, merger with or acquire some or all of the specific companies or brands that can benefit from utilizing some or all of the company's shared resources. The company compares this to a mini shark tank meets the Profit from the popular TV shows where companies look to get investments and/or strategic partners to help their company's get to the next level or execute their business plans properly - we call it the Alliance Tank.

The company feels it can offer significant value to small growing companies to grow faster together rather than separately for the future benefit of the ACGX shareholders and investors.

**B. New Business Opportunities and Project Updates – The Alliance Tank**

Although the core business has been around 20 years and the public company has been around for about 17 years we understand the need to expand more rapidly in the future and to find a better balance between our solid core foundation and some other more exciting, expandable and larger potential growth opportunities to create real long term value for the shareholders. Therefore, we have set up an internal project/division that we call "The Alliance Tank". This shared resources program allows us to leverage our relationships, experience, assets and other resources to accomplish results greater than the sum of the parts. This is very similar to the popular TV show Shark Tank. The Alliance Tank is looking to invest in, acquire, merger or work with other companies and projects where we feel we can add value and create future revenues and profits for our shareholders.

Four recent Alliance Tank deals include: Peoplevine, Four Oceans Global, Primary Trucking and Rapid Freight Solutions.

First is PeopleVine, The Company assets were 100% acquired by ACGX (12/29/14) and became an internal ACG Company with its founder and Chief Architect, Jordan Gilman, staying on as the President and as an equity partner of PeopleVine. Currently PeopleVine has been spun off into a separate private company, PeopleVine, Inc., and ACGX owns shares in this private company. As of this Quarterly report, and after PeopleVine's acquisition of the software company Tribe PM, there are a total of 10,062,500 vested shares with a current value of fifty cents each (\$.50). This value amount is based on the last funding round and the value of the shares exchanged for the acquisition. There are 7 current shareholders and ACGX owns 3,364,375 shares or 33.43% of the overall company. ACGX also has 1 of the 2 board seats of the new company.

As of March 31, 2018, ACGX has invested \$700,000 in total, in cash and services, into PeopleVine in exchange for the current equity of the new company.

PeopleVine is a consolidated platform that allows businesses to build more personal relationships with

their customers at scale.

PeopleVine solves the problem businesses have creating and managing holistic relationships with their customers without using multiple products that only support a portion of the relationship building activities.

PeopleVine seamlessly brings together the tools needed to market, sell, and operate a business with streamline efficiencies in a customer engagement suite and enables businesses to make data informed decisions to help generate revenue growth.

PeopleVine is becoming an industry leader in the growth market of incubators and coworking spaces. Our platform is used by the best in the industry, from 1871 and mHub, to Daymond John's Blueprint + Co. These clients need a robust platform to manage and engage with their members and PeopleVine supports them in this effort.

In addition to these incubators and coworking spaces, PeopleVine also works with United Airlines, Chick-fil-a, and Bosch.

PeopleVine is committed to being the most essential and adaptive SaaS engagement platform for companies that take a customer centric approach to business.

PeopleVine has built a single platform for marketing teams to engage with their consumers. PeopleVine is a fully integrated content management system (CMS), marketing automation and sales tools on top of a core CRM to capture and nurture human interaction. PeopleVine is the only platform to capture 35 touchpoints in real-time allowing you to enable action based marketing through our suite of "customer journey" marketing tools. Marketers can take their interactions further than just a single e-mail, PeopleVine enables them to engage through the entire customer journey. Behind it all is a CRM capturing every interaction back to a single profile. Further enabling you to see consumer behavior over time, while leveraging the data for automated interactions.

PeopleVine is the first platform to bridge CRM, marketing and sales into a single, seamless customer engagement suite. It allows brands, agencies and developers to leverage one platform for every interaction that occurs with their customers and across 25 external platforms like Facebook, Twitter, Instagram and Ebay. With 20 core components that are designed to work together users can leverage the following experiences: appointments, automation, billing, campaigns, eCommerce, content/CMS, contests, crm, events, location directory, loyalty & reward programs, digital memberships, keyword monitoring, email newsletters, digital offers, reviews, SMS/text, Social media tool, surveys, tickets and more. And with over 450 open API connections we can add some sort of value to almost any company.

The Second investment from the Alliance Tank was with Four Oceans Global. Four Oceans is a direct selling organization focused towards lifestyle base products, services and personal development

curricula. The newest product Four Oceans Explorer allows members to leverage the world's most complete invite only wholesale travel portal. The portal offers every kind of travel including but not limited to: air, car, hotels, resorts, timeshares, private jets, yachts, cruises, luxury homes & villas, concerts, sporting events, theatre tickets and more. After 20 years in the making Four Oceans Explorer is the culmination of years of travel marketing and technology development by its creators. Explorer is as much a travel technology as anything else and is powered by unique and proprietary tools to help members find the absolute best deal for any kind of travel. It's a blend of well thought out and easy to use travel search results and wholesale pricing not available anywhere else. In fact, this is why it is not available to the public. Due to strict pricing contracts that exist online for the travel industry, a membership is required to access deals so low, they must be guarded by a "closed loop" membership login. Rather than do what all other online travel agencies do by spending millions on marketing and advertising, Four Oceans Explorer uses an affiliate network for everyday people who are rewarded for referring others to the membership. This global network is powered by Four Oceans, a unique self-improvement company geared towards helping people find greater success and happiness in their lives through online personal development training. The owners of the company recognize the power of going on vacation and traveling more as an important part of elevating happiness and after over 20 years of marketing travel, they have added the ability to find the best travel deals through the unique and exclusive Explorer travel portal.

ACG signed an exclusive print, packaging and digital marketing agreement with Four Oceans and invested \$50,000 into a development and royalty agreement.

Under the print, packaging and digital marketing agreement ACG will help create unique marketing materials, possible membership boxes, direct mailings along with all types of online marketing and leveraging many of the PeopleVine platform's features to market and build their business.

Under the development and royalty agreement ACG invested \$50,000 and will receive a % of the founders pool until it has been paid up to \$1,000,000. There is no time limit on the agreement and no guarantee. Four Oceans, has changed to Elevacity and will hopefully start making monthly payments in the future based on the shared profits and does not guarantee a million dollar repayment but the payments will stop if they total repayments reach one million dollars.

ACG will also set up a member account so if anyone signs up under ACG there are other potential revenue opportunities with Four Oceans.

As of December 31, 2016 Four Oceans made some changes. They had several initiatives on the table including a name change to Travolopy and a reverse merger into SHRV on the OTC Markets. The new parent company will own PathAways and FourOceans as a wholly owned subsidiary. The new company is also working on potential deals that include luxury condos in Puerto Rico and other potential projects in the travel industry to create additional revenues and profits in the future. ACGX will have the same deal it originally contracted for with Four Oceans to have the ability earn a percentage of the profits.

As of March 31, 2018, the Company is still working on potential deals to derive some sort of future value out of this agreement.

ACGX and SHRV are also still in discussions to determine the best way(s) to use shared resources to cross promote and cross market the companies and their services to the benefit of all investors and shareholders.

The Third project is Primary Trucking, which is an internal company for ACG to help the Company expand their transportation services. The new internal company has its own trucks and drivers, along with relationships and agreements with Owner Operators, and offers Full Truck Loads (FTL services) out of the Midwest.

Primary Trucking leverages all of the Alliance Creative Group and PeopleVine resources to create a simplified cost-effective solution for quoting and managing full truck loads. The company leverages experienced staff, technology and marketing resources to improve the customers trucking experience and expand the overall company's revenues and profits.

Primary is an asset-based full service truck line with in-house expedited fleet of Trucks. The business plan is to leverage owner operators to control expenses while expanding the business. Due to some unexpected delays with insurance and other misc paperwork and compliance related issues, that were out of the company's control, Primary was not able to book many truckloads until the very end of the third quarter of 2016. Therefore Q4 2016 was the first full quarter with Primary trucking under ACGX. As of the date of this filing, Primary was averaging between 30 and 35 trucks/drivers in their fleet with about 50 trailers.

As of April 2018 the Company has entered into a new agreement for a new trucking partnership with Mark-It Logistics., a bigger, more established trucking Company. The new arrangement will help reduce insurance costs, improve safety and compliance procedures, provide access to better software, along with more equipment, additional resources and other benefits. ACG will still own and maintain some trucks and drivers but will transfer its trucking clients and most of their drivers to Mark-it. Mark-it will take over the trailer liabilities, and expenses related to insurance, compliance, trucking technology, and other day to day operational expenses. This will reduce ACG's revenue but will also substantially reduce its' expenses and liabilities. The Company believes the bottom-line, net-income, should be improved while saving the company time, money, and other resources.

As many already know ACG offered some consulting, printing and packaging services to the Cannabis industry a few years ago (in 2014) and had a few contracts and customers for misc services. ACG was never involved in any direct cannabis businesses. The original intent was to leverage the Company's existing printing and packaging skills and relationships to offer child-resistant pouches, labels and other related products and services. ACG has stopped actively pursuing a patented child resistant pouch with a manufacturer in China at this time. As of September 30, 2016, it looked like this patent would not

be completed and the production of these pouches may not make financial sense to move forward. In order to produce the desired product and receive a patent the time and financial investment may be too significant to take that required risk at this time when comparing the potential reward. There are also some potential legal, banking and international issues that have been brought up that we are evaluating as well. During this time the company has also been reviewing and evaluating the potential future revenue and profit areas in the industry and does not see as many opportunities currently as they originally thought related to the printing and packaging services. ACG is not looking for new opportunities in the industry due to a potentially lower ROI and/or lower overall upside. As things change the Company will update the public. As of December 31, 2017, the Company has not changed its position and/or involvement in this industry.

A Fourth investment and project for Alliance is Rapid Freight Solutions. Rapid Freight Solutions (Rapid) provides domestic shipping services nationwide, quickly and safely moving products across the country. Rapid specializes in LTL, air freight, hot shot, trade-show, flatbed, intermodal, over-dimensional, step-deck, and refrigerated trucking. Thanks to the Company's 30 years of experience, we have relationships with more than 140 carriers nationwide, helping ensure our customers quality service with competitive pricing. This project began in 2017 and the Company is currently in talks with another, bigger trucking Company, and hopes to negotiate some sort of future partnership to leverage their resource.

As of the time of this report the Company is discussing possible changes with Rapid Freight Solutions and ways to work closer with Mark-it Logistics for LTL As well as the current FTL business.

The Company is still evaluating, in discussions with or negotiating with other potential partners or opportunities. This includes companies in the printing, packaging, customer engagement, events and entertainment, fulfillment & supply chain management, trucking & logistics, PR, social media, SEO, technology, food services, product development, creative & design, and other industries.

The Company is adding the Real Estate and Blockchain Technology industries to the list of areas they will look for and evaluate future business opportunities.

There have been no other significant advancements to specifically discuss. If and when any of these deals close the Company will release the information to the public.

We will continue to negotiate with multiple parties and evaluate the pros and cons and risks and rewards for all potential opportunities and will update the public as deals get closed and progress is made.

#### **PCAOB AUDIT**

Another important project/update is that the Company has officially hired Brio Financial to assist with preparing for 2 years of PCAOB audits. Brio

Financial will oversee the company's public filings and audit preparation processes and assist with the evaluation of auditor firms to determine the best fit for the Company. The Company will continue to evaluate their options and the requirements associated with upgrading to a higher exchange in the public markets and will confirm once a final decision is made. The Company is not reversing the company stock at this time.

1. The form of organization of the issuer (e.g., corporation, partnership, limited Liability company, etc.):

The organizational form of the issuer is a Corporation.

2. The year the issuer (or any predecessor) was organized

The issuer was organized in 2000.

3. The issuer's fiscal year end date

The issuers' fiscal year end date is 12/31.

4. Whether the issuer has been in bankruptcy, receivership or any similar proceeding

The issuer has never been in bankruptcy, receivership or any similar proceeding.

5. Any material reclassification, merger, consolidation, or purchase or sale of a significant amount of assets

The Company has been involved in the following acquisitions and joint ventures since Mr. Sorkin was elect the new CEO on June 23, 2008 and Mr. St. Louis was elected on December 21, 2011.

September 24, 2009 - The company entered into a joint venture agreement with WT SurgiCenter, LLC (Known as Water Tower Surgery Center) to help manage and market the center and recruit new doctors and clients and increase the overall revenues and profits for the center. The center had a change in ownership and control and the company dissolved their joint venture as of March 26, 2010.

On December 1, 2009 the Company acquired specific assets and took over specific liabilities from STL Marketing Group which included St. Louis Packaging and STL Graphics. This acquisition helped the companies utilize the economies of scale and share some common overhead, employees and operating expenses. The acquisition also allowed the companies to market multiple services together while reducing overall future liabilities and future cash flows. The company took over all of the industry payables and liabilities, the liability of the bank line of credit and majority of the company's long-term note payables in order to acquire any of their assets. These divisions are still a part of the Company. STL Graphics Group is a full-service web and sheet-fed printing group that has the capacity to run 24 hours a day, 7 days a week. STL Graphics uses the latest technologies to service a wide variety of businesses and printing projects. St. Louis Packaging is an established business that has been

operating for over 13 years with extensive experience in industrial and retail packaging and customizable inventory management programs with 4 strategic warehouse locations nationwide.

On February 9, 2010 The company entered into a joint venture with Chicago Affordable Cars (an internet car dealer) to help manage, market, maintain and expand the current business interest in Chicago and to expand to future markets. The parties decided to dissolve the joint venture as of November 11, 2010. The parties felt it was in the best interest of all parties involved to end the relationship and allow each party to focus on other future business projects.

On November 1, 2010 The Company acquired specific assets of Snap Graphics and later launched a new website [www.SnapGraphics.com](http://www.SnapGraphics.com). Some of the assets included commercial printers, equipment, supplies, customer lists, domains and a company cargo van. The website [www.SnapGraphics.com](http://www.SnapGraphics.com) is currently live but has been forwarded to [www.Print4aCause.com](http://www.Print4aCause.com) and is taking orders for all types of printing products including but not limited to: banners, business cards, brochures, postcards, flyers and more.

Mr. Steven St. Louis was elected the new CEO and Chairman and Mr. Sorkin resigned on December 21, 2011.

On March 5, 2012 ACGX purchased all the issued and outstanding preferred stock in STLK for \$25,000 by taking over debt and on September 9, 2012 ACGX entered into a binding LOI to sell all of the preferred stock in STLK to Versant Corporation. The parties closed on the sale Monday October 15, 2012. The terms of the deal include 3 payments of \$25,000 each. The 1<sup>st</sup> payment was due at closing, the 2<sup>nd</sup> payment was due in late November 2012 and the final payment was due in Jan 2013. STLK also entered into a 6 month consulting agreement with ACG that went until Mid-February 2013. The terms of that agreement include a total compensation packaging of \$10,000 a month in future stock after STLK is a fully reporting company and has the liquidity to issue and trade enough shares to honor the debt. As of the date of this report the Company received the \$25,000 for the first payment from October 15, 2012, \$55,000 for the 2nd and 3rd payments and some Interest during Q2 of 2014 and nothing for the consulting agreement yet. The Company was one the debtors included in STLK's recent 3a10 filing where the court approved this action on March 19 2014 to help collect the \$50,000 plus interest for the preferred shares. During the 2<sup>nd</sup> quarter of 2014 ACGX was paid \$55,000 from the 3a10 group. During the 3rd quarter of 2014 the Company was paid the final \$5,497.27 for the remaining additional interest.

As for the consulting agreement shares, STLK was a fully reporting OTCQB company, so they would have been able to issue shares to ACGX, however, their current business has closed any and their stock is no longer listed. In the meantime interest is being accrued and the Company is looking into all legal action to attempt to recover some or all of the debt owed by STLK to ACGX..

Management of STLK and their legal representative have not provided ACG with any additional details about the potential timing of this repayment and their business stopped operations and their stock was delisted so we will continue to look into any and all legal options to address their default and review

and evaluate all possible future options to protect our debt and address their legal obligation and enforce our legal rights and/or help provide other options and ideas for STLK to be able to honor and repay the documented and legally binding debt owed to ACG. Therefore, the timing and amount of any repayment is still pending. As of March 31, 2018 the status of this collection issue has not changed.

On August 14, 2013 ACGX launched a new website [www.Print4aCause.com](http://www.Print4aCause.com). Print4aCause was founded on the principles of integrity, creativity, compassion and, most importantly, giving back. Almost every business owner, especially those in small businesses, have to create multiple items every day—from business cards, letterhead, postcards, flyers, banners, direct mailings and marketing materials. Print4aCause offers exceptional quality products with exceptional service while focusing on giving back to meaningful causes. Unfortunately this project was never able to gain any traction and very little business was generated from this website.

On September 4, 2014 ACGX launched a new website [www.CorporateGifts4aCause.com](http://www.CorporateGifts4aCause.com). The new website will offer high-end branded corporate gifts with a portion of the revenues being donated to charity. The goal is to help clients give a gift and support a cause while raising money and awareness for multiple causes. Unfortunately this project was never able to gain any traction and very little business was generated from this website.

On December 29, 2014 Alliance acquired the assets relate to PeopleVine, a relationship management software company, from Spiderweb Design, Inc. The company also entered into an employment agreement with the founder and programmer, Jordan Gilman. The purchased assets included all of Seller's Domain names related to PeopleVine or with the word "Vine" in them, websites, social media pages content and lists, software and source code and related data models that enable the software, ownership of the PeopleVine trademark (registration #4566949), marketing materials, presentations and decks related to PeopleVine, manuals, data, all branding, designs, artworks and the like, email addresses, phone and fax numbers and equipment used for the PeopleVine company, all the rights, titles and interest in and to any and all of the above mentioned assets along with any goodwill, customer lists and contact information, supplier lists and contact information, operating records, telephone numbers, assumed name PeopleVine, and other assets used in connection with the Business.

As of March 31, 2018 Alliance has invested \$700,000 in cash and services and PeopleVine has been spun off into a separate private company that ACGX owns shares of and has a board seat. More detailed involved this transaction are above in Part C item 8 section B.

On July 21, 2015 Alliance and Four Oceans Global signed an exclusive print, packaging and digital marketing agreement and Alliance invested \$50,000 into a development and royalty agreement. More detailed involved this transaction are above in Part C item 8 section B.

As of June 30, 2016, Alliance launched a new internal company and website [www.PrimaryTrucking.com](http://www.PrimaryTrucking.com) to expand their transportation services. The new internal company has its own trucks and drivers and will

start with offering Full Truck Loads (FTL services) out of the MidWest. Due to some unforeseen delays with insurance companies, compliance paperwork and misc issues, the first truckloads were not booked for Primary Trucking until the end of the third quarter in late September 2016.

As of April 2018 the Company has entered into a new agreement for a new trucking partnership with Mark-It Logistics., a bigger, more established trucking Company. The new arrangement will help reduce insurance costs, improve safety and compliance procedures, provide access to better software, along with more equipment, additional resources and other benefits. ACG will still own and maintain some trucks and drivers but will transfer its trucking clients and most of their drivers to Mark-it. Mark-it will take over the trailer liabilities, and expenses related to insurance, compliance, trucking technology, and other day to day.

The Company is currently in negotiations with a larger trucking company and hopes to enter into a new trucking partnership.

RapidFreightSolutions.com was launched in 2017 to help fill the need for domestic shipping services nationwide. The services offered include LTL, air freight, hot shot, trade-show, flatbed, intermodal, over-dimensional, step-deck, and refrigerated trucking. The Company is currently in negotiations with a larger trucking company and hopes to enter into a new trucking partnership.

As of the time of this report the Company is discussing possible changes with Rapid Freight Solutions and ways to work closer with Mark-it Logistics for LTL As well as the current FTL business.

6. Any default of the terms of any note, loan, lease, or other indebtedness or financing arrangements requiring the issuers to make payments

The Company's prior management entered into a convertible debenture with Golden Gate Investors, Inc. on April 27, 2004. Golden Gate Investors, Inc. changed their corporate name to Golden State Equity Investors, Inc. on December 22, 2008. The current management signed a letter of understanding to amend the terms of the agreement for the Company on October 1, 2009. The Company and Golden State signed another amendment in August of 2011 and entered into another new agreement on March 31, 2013.

As the former CEO of the Alliance Creative Group, Mr. Paul Sorkin, entered into a personal guarantee agreement with Golden Gate Investors on June 23, 2008 for the amount of \$112,000. Golden Gate filed suit against Mr. Sorkin and received a judgment for the full original amount plus interest and fees totaling \$122,500. The company and Mr. Sorkin entered into a post-judgment agreement with Golden Gate in October 2009. The Company and Mr. Sorkin amended that agreement again in August of 2011. The company and its new CEO Mr. Steven St. Louis completed negotiations with Golden Gate to amend the

agreement again and entered into a new agreement as of October 30, 2012. Another amended agreement was entered into as of March 31, 2013. The parties also agreed that if ACG was not in default of this new agreement by June 30, 2013 they would dismiss the prior judgment they had against Mr. Sorkin (The former CEO). Since ACG was not in default as of June 30, 2013 the judgment against Mr. Sorkin was dismissed.

As of July 13, 2016, Golden State Equity Investors, Inc. filed a lawsuit against Alliance Creative Group, Inc. in the Southern District of California. In the action Golden State claims ACGX owes them more Shares via. conversion of their debenture. The Company did not believe they owe them any additional shares and entered a counterclaim against Golden State.

Alliance completed a settlement and this case has been dismissed. As part of the settlement two existing investors, Golden State and Alliance entered into a purchase agreement and exchange agreement to exchange the debenture and warrant from Golden State for 225,000 shares of Alliance's series H preferred stock

On September 11, 2017 Alliance Creative Group, Inc., a Nevada corporation (the "**Company**") entered into the following agreements (collectively as the "**Agreements**"):

- (a) that certain Settlement Agreement dated September 11, 2017 (the "**Settlement Agreement**"); and
- (b) that certain Debenture Purchase and Assignment Agreement dated September 11, 2017 (the "**Purchase Agreement**").

Under the terms of the Settlement Agreement, as entered into between the Company and Golden Gate Investors, Inc. ("**Golden Gate**"), the Company and Golden Gate fully and finally settled and released all claims, both known and unknown, that each has against the other.

Under the Purchase Agreement, as entered into between the Company, Golden Gate, and two investors who jointly have had a pre-existing relationship with the Company (the "**Investors**"), the Investors purchased that certain Convertible Debenture (the "**Debenture**") and that certain Warrant to Purchase Shares of the Company's Common Stock (the "**Warrant**") from Golden Gate in exchange for their payment of the sum of \$225,000.00 as delivered to Golden Gate in payment of the purchase price.

Following the closing of the Settlement Agreement and the Purchase Agreement and on September 25, 2017, the Company and the Investors entered into that certain Exchange Agreement, dated September 25, 2017 (the "**Exchange Agreement**") wherein the Investors surrendered and exchanged the Debenture and the Warrant that they acquired in the Purchase Agreement for an aggregate of Two Hundred Twenty-Five Thousand (225,000) shares of the Company's Series H Preferred Stock (the "**Series H Preferred Shares**"). The Exchange Agreement was undertaken in accordance with the exemption as provided by Section 3(a)(9) of the *Securities Act of 1933*, as amended (the "**1933 Act**") and each of the Investors

received, prior to the Purchase Agreement, such disclosures and information regarding the Company and its corporate and financial affairs as would ensure that they could make an informed investment decision free from any material misstatement or omission of material fact.

Each of the Series H Preferred Shares are convertible into the Company's Common Stock at a price that is equal to 70% of the three lowest closing prices of the Company's Common Stock in the ten days immediately preceding the date at which the Investors submit the Notice of Conversion to the Company. The conversion rights of any holder of the Company's Series H Preferred Shares is limited by a maximum conversion limitation provision to ensure that the holder does not become an "affiliate" of the Company as that term is defined in Rule 144(a)(1) of the 1933 Act.

The Settlement Agreement, the Purchase Agreement, and the Exchange Agreement were each duly approved by the Company's Board of Directors and the Company believes the agreements serve the interests of the Company and its stockholders.

7. Any change of control

The Company was incorporated on June 1, 2000. Up until June 23, 2008 Bill Forhan was the CEO and David Scott was the COO. As of June 23, 2008 Paul Sorkin became the CEO and Chairman of the Board. Steven St. Louis became the CEO and Chairman of the Board on December 21, 2011. Mr. St. Louis is still the CEO and Chairman of the Board.

From April 1, 2016 to June 30, 2016, the company issued an additional 65,112,720 common shares to previous investors that entered into convertible note agreements or promissory notes over 1 year ago. **The Company was also able to negotiate with one of its largest note holders to eliminate and retire over \$100,000 of convertible debt. Between the issuance and the retired debt the Company reduced the overall debt owed by \$123,331 during the quarter.**

From July 1, 2016 to September 30, 2016 the company issued an additional 45,750,000 common shares to previous investor(s) that entered into convertible note agreements or promissory notes over 1 year ago and reduced the debt owed to the parties by \$7,320. In an effort to consolidate and reduce the number of debt holders this conversion was tied to a Stock Purchase Agreement for a partial purchase and assignment of an original note from July 11, 2008 and was sold to a related party.

From October 1, 2016 to December 31, 2016 the company issued an additional 65,000,000 common shares to previous investor(s) that entered into convertible note agreements or promissory notes over 1 year ago. The Company also issued 30,000,000 restricted shares with a one year hold for investor relation services. The Company also came to an agreement with a larger note holder to retire over \$200,000 of

debt. **The company was able to reduce their overall debt by \$225,576 during the 4th quarter of 2016** From January 1, 2017 to March 31, 2017, the company issued an additional 145,000,000 common shares to previous investors that entered into convertible note agreements, promissory notes, or other agreements over 1 year ago and reduced the debt or equity owed to the parties by \$23,700.

From April 1, 2017 to June 30, 2017, the company issued an additional 300,235,334 common shares to previous investors that entered into convertible note agreements, promissory notes, or other agreements over 1 year ago and **reduced the debt or equity owed to the parties by \$424,231.**

From July 1, 2017 to September 30, 2017, the company issued an additional 75,359,393 common shares to previous investors that entered into convertible note agreements, promissory notes, or other agreements over 1 year ago and reduced the debt or equity owed to the parties by \$183,785

From October 1, 2017 to December 31, 2017, the company issued an additional 172,929,356 common shares to previous investors that entered into convertible note agreements, promissory notes, or other agreements over 1 year ago and reduced the debt or equity owed to the parties by \$118,900

From January 1, 2018 to March 31, 2018, the company issued an additional 87,614,866 common shares to previous investors that entered into convertible note agreements, promissory notes, or other agreements over 1 year ago and reduced the debt or equity owed to the parties by \$40,973.

The Company has not sold any of their free trading shares for any compensation or investment. The Company has not issued any free trading shares using the exemptions related to a Regulation A filing, a Rule 504 exemption, filed an effective registration statement or entered into any 3a10 agreements.

As of March 31, 2018, the company has a total of about \$75,000 in convertible debt in long-term notes and/or debentures. These notes can be paid back in cash or stock. The investors have been working with the company to try to find the best balance between maintaining solid company fundamentals, growth plans and cash flows while trying not to dilute the stock too quickly to cause a significant decline in price. However, there are no guarantees or pre-arranged agreements for how much the investors will or will not convert in the future. All the notes have a conversion mechanism that allows note holders to convert at a discount to market rather than a set price. The overall average discount price of all the notes is around a 30% discount to market. This means if the stock goes up and shares are issued then less shares are needed to reduce the debt obligation and if the stock price goes down more shares are needed to honor the debt obligations. No one debtor will ever own more than 9.9% of the common stock at one time but if every debt holder converted their entire notes over time the company may have to issue hundreds of millions of additional shares to reduce this debt to zero, based on the current estimated stock price. If the stock price goes down that amount may go up and if the stock price goes up the amount of

shares that will be needed will go down. Keep in mind this is a process that may take multiple months or years or may never happen. These types of conversion decisions are made between the debt holder and the company on a case by case basis. All parties have the company's overall best long-term interest in mind but there are no set plans or agreements as to the amount of debt that will be paid back in cash vs stock or the timing of any of these conversions. The Company will continue to reduce their debt and most likely raise any additional funds via Equity agreements. The Company's goal is to have no convertible debt and only equity investors moving forward as soon as possible. The delay in debt reduction has been caused by the lower stock price, due to the mutual desire of the Company and the note holders to attempt to reduce the dilution.

**MISC. NOTE:**

Between January 1, 2015 and December 31, 2017. The Company invested, advanced and/or incurred one-time start up expenses of over \$1,700,000 for the 3 newer projects that started 1/1/15 to create future growth.

During that almost 3 year period the company added about \$7,000,000 of annual future revenue while reducing over \$1,000,00 in convertible debt.

9. Any past, pending or anticipated stock split, stock dividend, recapitalization, merger, acquisition, spin-off, or reorganization

The Company was formed on June 1, 2000 under the name of Invicta Group, Inc. in the State of Nevada. The Company changed its name from Invicta Group, Inc. to its current name by filing the Certificate of Amendment to the Articles of Incorporation with the Nevada Secretary of State 10/22/10. The name change was approved and announced on 11/12/10 and the corporate action took effect and FINRA recognized the change at the open of business 11/15/10.

As of November 15, 2010 Alliance Creative Group (ACGX) announced the effectiveness of its reverse and name change and that each two thousand (2000) shares of the Common Stock of the Corporation issued and outstanding shall become one (1) share of Common Stock of the Corporation. Fractional or partial shares will not be issued and instead will be rounded up to the nearest whole number of shares. This reverse split becomes effective as of the market open on November 15, 2010. The new name and stock symbol have also been completed and the Corporation formerly known as Invicta Group, Inc (IVIT) is now Alliance Creative Group, Inc (ACGX). The Company has also reduced the total Authorized shares from 5,000,000,000 to 50,000,000. As of May 1, 2013 the company increased the total authorized shares to 750,000,000. As of August 19, 2015 the Company increased the total authorized shares to 999,000,000. Since the Company had remaining convertible debt as of October 10, 2016 the Company increased the total authorized shares to 2,900,000,000. There are no other current pending mergers, acquisitions, spin-offs or reorganizations planned at this time.

10. Any delisting of the issuers securities by any securities exchange or deletion from the QIC Bulletin Board  
August 6, 2009 The Company filed a Form 15 with the Commission to terminate the registration

of the Company's Common Stock under the Securities Exchange Act of 1934. Since that date the Company's Common Stock has traded only on the OTC markets.

11. Any current, past, pending or threatened legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition, or operations and any current, past or pending trading suspensions by a securities regulator. State the names of the principal's parties, the nature and current status of the matter, and the amounts involved

On or about September 19, 2011 Mr. Sorkin received a Subpoena Duces Tecum from the Securities Department of the Illinois Secretary of State requesting information related to ACGX and STLK. Mr. Sorkin provided the department with all the requested information in 2011 and then also gave an oral statement on October 4, 2012 to the Department on those matters. As of May 11, 2018 there have been no additional requests, actions, or communications so the inquiry remains pending.

The following is litigation that the company was involved in and has been completed. As of March 31, 2014 the company had filed a breach of contract claim in the circuit court of Cook County (Case #13-M1-126282) against Chicago Affordable Cars and Yazan Abuharbeed. As of December 31, 2016 the case was settled and dropped.

**DTC DEPOSIT CHILL – REMOVED OCTOBER 19, 2012**– Alliance Creative Group hired attorney Simon Kogan on August 16, 2012 to pursue potential legal action against DTC to remove a deposit chill placed on the company. A deposit chill is a limitation of certain services that prevents additional deposits of the Issue for depository and book-entry transfer services. On August 21, 2012 Mr. Kogan received communications from the attorneys representing DTC informing the company for the first time that a deposit chill was imposed on the company as of July 26, 2010. The basis for the deposit chill was an unusually large amount of deposits during the time period of October 20, 2009 until July 26, 2010. In order for DTC to make a determination as to whether to lift the Deposit Chill they required supporting documentation for all transactions during the above mentioned time period. The company supplied DTC with all the required back up documentation supporting each and every transaction. DTC reviewed the documents and determined that ACGX did nothing wrong and removed the deposit chill to allow the company to resume normal deposits and book-entry services as of October 19, 2012.

As of July 13, 2016, Golden State Equity Investors, Inc. filed a lawsuit against Alliance Creative Group, Inc. in the Southern District of California. In the action Golden State claims ACGX owed them more Shares via. conversion of their debenture. The Company did not believe they owed them any additional shares and entered a counterclaim against Golden State.

Alliance completed a settlement and this case has been dismissed. Full details in prior sections of this report.

As of March 31, 2018, Alliance Creative Group, Inc d/b/a Primary Trucking, is still involved in a lawsuit including multiple parties (11 defendants) related to an accident with a truck. The insurance company has hired an attorney on behalf of Alliance to defend the Company in this case. The case is still pending in the circuit court of cook county, Illinois.

#### **BANKING UPDATES**

In Feb of 2018 the Company changed banking relationships from US Bank to MB Financial Bank. The move allows the company to restructure and consolidate some old debt, increase their bank lines and credit cards while building a long-term relationship that understands our desires and plans to grow and possibly acquire other companies.

The specific agreements include 3 parts:

Revolving line of credit for \$1,500,000

A \$225,000 term loan for 36 months

and

Company credit cards with \$250,000 combined limit

There was a potential sales tax liability with the Illinois Department of Revenue for the period from 10/01/08 to 09/30/10 for St. Louis Packaging, Inc where some clients overlapped between the different companies after the asset purchase agreement by the Company. The Company felt they owed \$4,975 while the State felt the amount owed is around \$100,000. There was a similar situation, with similar clients and transactions, for the time period of 10/01/10 to 09/30/12, where the State believed the Company owed over \$100,000 and later agreed the actual amount owed was \$5,503. This situation has been resolved.

### **Summary of Significant Accounting Policies**

This summary of significant accounting policies of the Company is presented to assist in understanding the Company's financial statements.

#### *Accounting Methods*

These accounting policies conform to generally accepted accounting principles and have been applied in the preparation of the financial statements. The books and records of the Company are maintained on the accrual basis of accounting for financial statements and tax reporting purposes.

#### *Cash and Cash Equivalents*

For purposes of reporting within the statement of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

#### *Revenue Recognition*

Revenue from sales of products is recognized at the time the order is processed and collection is reasonably assured.

**Item 16: Management's Discussion and Analysis or Plan of Operation**

A. Plan of Operation for the next 12 months

It is anticipated that the following will take place:

The Company will continue to service and maintain its' current clients while actively marketing to find new clients. The Company will market its services in print, online and at events, along with all social media and word of mouth networking and marketing. The key to having multiple products and services is to be able to offer a Company any one service in hopes of getting a client started using one of the company's services and then introduce some or all of the other services at a discount once they have developed a comfort level with the company and the overall quality of the products and services.

We will also continue to seek out strategic partnerships and acquisitions that will support and enhance our product and service offerings and brands. We may seek additional funding sources to support some additional needs to expand our sales and marketing team while carrying more inventory and accounts receivables and acquiring some companies as the company grows.

Moving forward the company hopes to continue to close other M&A or Investment opportunities and enter into or expand with some more exciting and expandable Industries with products or services that have the potential for larger growth and future shareholder value.

#### **Trends driving our business model**

The overall trend in creative packaging and digital engagement including: printing, packaging, product development, procurement, supply chain management, customer engagement, marketing and consulting is to use fewer companies for more services so the client can limit the number of project teams and employees that are required to fulfill their needs. Our economy of scales shared resources approach and experienced team allows us to help our clients reduce their overall expenses by allowing us to service them in more than one area of their business. We are also printing more in-house and may continue to head in that direction if positive results continue. If we are able to bring enough business in-house we may look into expanding and enhancing our in-house machines and equipment. These trends are similar with trucking and software as well.

## **FORWARD LOOKING STATEMENTS**

This disclosure may contain some forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements concerning plan, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements that are other than statements of historical facts. These statements are subject to uncertainties and risks including, but not limited to, the volatility of the market price of our common stock, our inability to predict the effects of our reverse stock split on the effect of our stock market price, our business plans, the strategies that we use to develop and evaluate opportunities, the extent of product and service demand and acceptance, changes in technology, economic conditions, the impact of competition and pricing, government regulation, and other risks described in statements filed from time to time with the Securities and Exchange Commission. All such forward-looking statements whether written or oral, and whether made by or on behalf of the Company, are expressly qualified by the cautionary statements that may accompany the forward-looking statements. In addition, the Company disclaims any obligation to update any forward-looking statements to reflect events or circumstances after the date hereof.

## **RISK FACTORS**

Before making a decision to invest in Alliance Creative Group, Inc. (OTC:ACGX), prospective investors should consider carefully, in addition to the other information contained in all of the Company's public filings and information, the following factors. The order in which the following considerations are presented does not necessarily represent the order of importance or likelihood of occurrence.

### **Market Conditions and Regulations**

The OTC market is a very volatile market and the Company has no control over how much or little stock is traded or at what price. The regulations may also change without any notice and the company's stock may have future issues or limitations that may be out of its control and could affect the overall stock price and trading volume.

### **Dilution of Common Stock**

The company has issued some convertible notes in the past that may be repaid by converting into and issuing additional common shares. Many of these notes have a conversion ratio based on a discount to market. Therefore the total potential dilution may vary based on the stock price at the time of conversions. All investors must take into consideration the potential future dilution of common shares when investing in this company.

### **Competition**

Although the printing, packaging, marketing and software industries are huge industries with a lot of opportunities there is also a significant amount of competition and there are no guarantees the company can maintain all of its clients and or gain more in the future.

### **Key Employees**

Our company employs some key employees that manage and have good relationships with some key

accounts. If something were to happen to certain employees there are no guarantees the company would be able to keep all of their current clients. The company does maintain some key man insurance policies in an attempt to reduce this risk.

### **Raw Materials**

Paper and plastic are examples of a raw materials that changes in value and may cause a change in the company's ability to maintain a similar profit margin in the future.

### **Inventory Adjustments and Potential Issues**

The Company carries a large inventory for its clients, usually over \$1,000,000 at any given time on average. Some of the Inventory is not guaranteed to be sold or used and some may be lost or damaged, with some costs or expenses possibly not being covered by insurance. The Company does as much as it can to minimize this risk but due to the business model and the industries there will always be a risk related to potential Inventory issues.

### **Accounts Receivables**

The company extends most of their client's credit terms and usually averages close to \$2,000,000 in total account receivables at any one time. The company is usually in a position as an unsecured creditor and runs the risk of not being able to collect all of its receivables all the time and may have to take some losses in the future. There are currently some larger receivables that may not be collected in full. The company will continue to attempt to collect everything but there are no guarantees of success.

### **Potential Lawsuits**

The company deals with a significant number of clients, employees, vendors and logistics people and runs the risk of potential litigations. It maintains insurance to cover most potential issues but there is no guarantee that the company will not be involved in any future lawsuits that could affect the overall value of the company in a negative way. Since the acquisition of PeopleVine there are some additional technology related risks and the Company will continue to update their insurance policies to try to cover or reduce any and all risks. With the creation of Primary Trucking the company had to update and add multiple types of insurance for the industry and acknowledge that there are some additional potential legal risks by expanding in the logistics and transportation industry. The Company is currently in litigation with parties involved in a trucking accident and the outcome is unknown and may cause some potential issues for the company if the court rules in their favor.

### **Significant Clients**

The Company currently has a few bigger clients that represent a large % of their business. The top 10 clients may represent more than 65% of the overall business at any given time. If any one or more of these clients change their activity level with the company it could change the company's revenues and profits significantly. The Company is always working on adding more clients and diversifying to reduce future risk however, there are no guarantees the current larger clients will continue to be clients for the long-term or if the company loses clients they can replace them with similar size clients. Sometimes clients change management, sometimes they go out of business and sometimes they just decide to make a change.

### **General Overall Risk Factor**

Like most companies there are a lot of potential variables that can occur to cause positive or negative effects on the overall company. The Company continues to work towards reducing these risks but understands the nature of the business, the industries it is involved in and the OTC Market that there will always be some risks and all investors need to be prepared to take on those risks before investing.

The Company encourages all investors and potential investors to review this entire report and disclosure statement and to do their own due diligence to better understand their overall potential risk and/or reward before making a decision to invest.
