4) Issuer's Business, Products and Services

The purpose of this section is to provide a clear description of the issuer's current operations. (Please ensure that these descriptions are updated on the Company's Profile on www.otcmarkets.com).

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

On December 31, 2022, the Board of Directors of Alliance Creative Group, Inc., a Nevada corporation (the "Company"), ratified the following actions by unanimous written consent:

Pursuant to the Asset Purchase Agreement wherein the Company acquired all of the outstanding membership interests and manager interests of two limited liability companies. This included 6403 N WAYNE OWNER, LLC, a Delaware limited liability company (the 'First Company") that owns the real property located at 6403 N. Wayne and which contains a sixteen unit corner walk-up, mixed-use building on the border of the Edgewater and Rogers Park neighborhoods of Chicago, Illinois. The Company also acquired all of the outstanding membership interests and manager interests of Peak Construction Group, LLC, a Delaware limited liability company (the "Second Company"). The Second Company is in the construction business with a management team that is experienced in commercial, multi-family, senior living, healthcare, industrial, hospitality, and academic construction market segments. The Second Company also provides design/build services with construction management to offer building and service experience. The purchase of the First Company and the Second Company were each acquired via the

Company's assumption of the then outstanding liabilities of each of them. That is, the Company acquired both the First Company and the Second Company merely by assuming their existing liabilities.

Pursuant to the Acquisition and Exchange Agreement wherein the Company completed an exchange transaction.

Pursuant to the Divestiture and Stock Purchase Agreement wherein the Company completed the divestiture of the packaging business that it has historically owned

If the Company is able to implement its business plans and subject to favorable market conditions, the Company seeks to operate as a holding company. The Company believes that this may allow the Company to gain the benefits that may serve a "shared resource strategy" whereby its subsidiaries and real estate investments may gain the benefits of vertical integration with the opportunity to achieve operating efficiencies and cost savings. If these efforts are successful, the Company anticipates that it may, subject to market conditions, acquire additional real estate assets with a focus on special situations and distressed assets.

In addition and as a secondary strategy, the Company may seek to acquire or originate secured loans and, if circumstances allow, to invest funds in early-stage companies, if market conditions and opportunities allow. If the Company is successful in these strategies, the Company anticipates that it may allow it to better utilize its planned shared resource model. As currently planned and subject to further review of future market conditions and then available and suitable investment opportunities, the Company intends to focus on investments consistent with the Company's managerial and financial resources.

Overall, the Company believes that it has the managerial skills and relationships that may allow it to successfully implement its strategies if it can successfully identify and acquire appropriate acquisition targets, deploy its managerial resources effectively and, if market conditions allow. If these goals can be achieved, then the Company believes that its shared resources strategy may allow the Company to manage its subsidiaries more efficiently and identify appropriate secured lending opportunities with reduced expenses. If these goals can be achieved, the Company may be able to own a diversified portfolio of businesses and investment projects with resulting diversification and lower risk in both the private and public markets.

As currently planned and if market conditions allow, the Company anticipates that it will initially focus on three types of investments or projects: (a) real estate acquisition; (b) secured lending for small businesses; and (c) early-stage equity business investments (and acqui-hires).

The Company also currently owns an aggregate of 1,682,188 shares of PeopleVine, Inc. and the Company holds one seat on the Board of Directors of PeopleVine, Inc.

Prior to December 31, 2022 and for the entire year of 2022 the Company was a Packaging and Fulfillment Solutions Company focused on Retail Packaging and Packaging Management. ACG helps its clients from initial concept and packaging development through final production and managed inventory solutions. The core business has been around since 1997. The public company was organized in 2000. ACG currently focuses mostly on providing solutions for

flexible and clear packaging, folding cartons, vendor managed inventory supply chain services and fulfillment. Additional services include but are not limited to corrugated boxes, commercial printing, labels, and other products and services related to the printing or packaging of consumer products.

ACG's team included experts to provide high-quality packaging and printed products. The ACG experience included very hands-on operational support out of 7 different warehouse locations and several national and international manufacturing partners. ACG provides customer support during the entire product process or cycle including but not limited to creating, warehousing, delivering, and replenishing their packaging product

Moving forward in 2023 these printing and packaging services have been divested and are no longer part of the Company.

B. List any subsidiaries, parent company, or affiliated companies. As of December 31, 2022 the company has two (2) wholly owned subsidiaries: 6403 N. Wayne Owner, LLC Peak Construction Group, LLC

C. Describe the issuers' principal products or services.

The Company seeks to operate as a holding company. The Company believes that this may allow the Company to gain the benefits that may serve a "shared resource strategy" whereby its subsidiaries and real estate investments may gain the benefits of vertical integration with the opportunity to achieve operating efficiencies and cost savings. If these efforts are successful, the Company anticipates that it may, subject to market conditions, acquire additional real estate assets with a focus on special situations and distressed assets.

In addition and as a secondary strategy, the Company may seek to acquire or originate secured loans and, if circumstances allow, to invest funds in early-stage companies, if market conditions and opportunities allow. If the Company is successful in these strategies, the Company anticipates that it may allow it to better utilize its planned shared resource model. As currently planned and subject to further review of future market conditions and then available and suitable investment opportunities, the Company intends to focus on investments consistent with the Company's managerial and financial resources.

Overall, the Company believes that it has the managerial skills and relationships that may allow it to successfully implement its strategies if it can successfully identify and acquire appropriate acquisition targets, deploy its managerial resources effectively and, if market conditions allow. If these goals can be achieved, then the Company believes that its shared resources strategy may allow the Company to manage its subsidiaries more efficiently and identify appropriate secured lending opportunities with reduced expenses. If these goals can be

achieved, the Company may be able to own a diversified portfolio of businesses and investment projects with resulting diversification and lower risk in both the private and public markets.

As currently planned and if market conditions allow, the Company anticipates that it will initially focus on three types of investments or projects: (a) real estate acquisition; (b) secured lending for small businesses; and (c) early-stage equity business investments (and acqui-hires).

The goal of this move includes, but is not limited to, consolidating 3 different local warehouses, reducing overall costs, improving internal controls and efficiencies, while improving the quality of service and preparing for future growth.
