

Full Stack Engineer Intern

We are looking for a **Full Stack Engineer Intern** to support us in the development of our **ShieldPortal** on the **Android platform** and expand our **current connectivity options**.

General Overview of the Company:

Ascent Integrated Tech, an EnterpriseWorks company, builds technology to bring first responders home safely to their families. We are hiring a **Full Stack Engineer Intern** to work on our **Incident Command Software**, which will be used to **monitor and command** operators in **austere environments**.

Required Qualifications to be Considered for Position:

Ideally, this person is a **Senior Undergraduate or Graduate student**, experienced in **Arduinos, Android, and AWS development**. Will start off part-time during the year and potentially upgrade to a full-time role upon graduation.
