

POSITION DESCRIPTION

Job Title: Part-Time Fabricator
Department: Engineering
Reports to: Mechanical Engineer
Revised date: August 4, 2020

[Cast21](#) is a rapidly growing medical device startup whose mission is to change the way the world heals, starting with broken bones. We are committed to developing innovative, safe, and effective products for orthopedic applications. Creative and clever people with a passion for change drive the company's success.

We are seeking a **part-time fabricator** to assist our team in the manufacturing, assembly, and packaging of our products. This position will be fulfilled on-site at our Chicago location. You will focus on fabrication, assembly, and storage of components while maintaining Cast21 standards. Exceptional candidates will have an opportunity to assist with fabrication of new prototypes and assist with internal testing. Interested candidates should send a resume to info@cast21.com.

Roles and Responsibilities:

- Fabrication of components
- Assembly and storage
- Inventory management
- Aide in internal testing of parts

Minimum Qualifications for this Position:

- Ability to lift 50lbs over short distances and stand for four hours at a time
- Detail oriented and ability to closely follow protocol
- Interested in hands on experience
- Basic proficiency in MS Excel

Preferred Qualifications:

- Engineering student or machining background
- Self-driven and ability to work autonomously
- Experience working with mixed materials

Student Learning Objectives:

- Manufacturing processes
- Quality Control
