

Spray Booth

Machine Purpose: To contain overspray, fumes and volatiles during spraying operations (paint, glue, sealants)

Safety: **Must wear safety glasses while operating machine. Respirator is advised.**

Materials: Paint, epoxy, glue, etc

Machine Specs: 148"x36"x24" Work Area

Accessories: Drying Racks, Lazy Susan, Setup Table

Instruction Required: None, help session if requested

Operations:

1. Turn on BOTH fans before starting to spray, paint or coat.

2. Place paper, cardboard, or other disposable protective sheet on the base of the booth.
3. Allow several minutes for spray to evaporate and off gas in the negative pressure area before removing to prevent unwanted smells permeating the space.
4. Move part to drying rack shelf when finished spraying.

5. Turn off fans when finished and clean up any paper laid out.
