

Branded Reservations

Book and manage in member portal.

One-member experience for every touchpoint within your space, including dining reservations through Sevenrooms' best in class table management.

On Arrival

Integrated to work seamless.

As your members enter your space, PeopleVine will notify Sevenrooms that your member has arrived, so your hostess and waitstaff can be prepared for creating a personalized dining experience.

CRM In Sync

Your key service data at your fingertips.

Whether your staff uses the Sevenrooms dashboard or any PeopleVine tools, they'll be able to see your member's key data points, so they can serve them best. Including your members being added to Sevenrooms as soon as they're added to PeopleVine.

Reservations in Sync

Always visible in their member portal.

Reservations made directly in Sevenrooms are synced with PeopleVine allowing your members to make changes via the member portal, while automatically building robust CRM profiles.

Check Data

Track spend, favorites and frequency.

Upon completing their dining experience, PeopleVine can process a ton of automation based on what they drink/eat, when they do it and how often, while providing rich analytics for reporting.

Reward + Automate

Fully integrated with PeopleVine.

When a reservation is added, cancelled or updated, you can trigger any one of PeopleVine's automation suites including Loyalty, Campaigns, Alerts, Webhooks and more for complete autonomy.
